

ENR 2016 225 International Design Firms

Reference: ENR

SEPTEMBER 1, 2016

Iran Oil Industry

ENR 2016-225 International Design Firms

The global market for professional design services is showing signs of softening as energy prices continue to be low. The uncertainty in the market can be seen in the results of ENR's Top 225 International Design Firms survey. The Top 225 firms generated \$65.43 billion in design revenue in 2015 from projects outside their home countries, down 7.7%, from \$70.85 billion, in 2014. They also had \$70.76 billion in revenue from domestic projects in 2015, down 3.7%, from \$73.48 billion, in 2014.

Companies are ranked according to revenue for design services performed in 2015 in \$ millions (*). Those with subsidiaries are indicated by (†). For information on subsidiaries and where each firm worked outside of the U.S., see www.enr.com. **Firms not ranked last year. Some markets may not add up to 100% due to omission of "other" miscellaneous market category and rounding.

NA - Not Available.

Key to type of firm A-architect; E-engineer; EC-engineer-contractor; AE-architect-engineer; EA- engineer architect; ENV-environmental; GE-geotechnical engineer; L-landscape architect; P-planner; O-other. Other Combinations possible. Firms classified themselves.
